CONCORDIA UNIVERSITY DEPARTMENT OF ACCOUNTANCY

FINANCIAL ACCOUNTING COMM 217 ALL SECTIONS

FINAL EXAM (REGULAR) - DURATION: 2.5 HOURS FALL 2020

Name:	ID:	Section:
<u>Instructions (very important):</u>		
1. All questions are multiple choice and mu	ust be answered in COLE.	
2. There is no need to show any calculation	ns.	

3. This is a closed book examination. However, a silent hand-held (not graphical or programmable)

calculator and one standard language (not electronic) dictionary are permitted.

GOOD LUCK!

Use the following table and information to answer question 1.

Present Value Tables

TABLE A.1: Present Value of \$1, p = 1/(1 + i)^n

Periods	2%	2.5%	2.75%	3%	3.75%	4%	4.25%	5%	5.5%
1	0.980	0.976	0.973	0.971	0.964	0.962	0.960	0.952	0.948

For each of the following multiple choice questions, choose the letter that corresponds to the **best** answer.

Use the following information to answer questions 1-7.

Carey Ltd. issued 5-year, \$5,000,000 bonds on July 1, 2020. The debentures have an annual stated (contractual) interest rate of 4% with interest payable semi-annually on December 31 and June 30, beginning December 31, 2020. The annual market rate for similar bonds was 6% at the time of issuance. The company uses the effective interest method to amortize any discount or premium on bonds and has a December 31 fiscal year end. You <u>must</u> use the present value factors provided in this exam in your calculations. Do not use a financial calculator to calculate present value.

- 1) How much money did Carey Ltd. receive on the bond issuance date?
 - a) \$4,156,200
 - b) \$4,577,400
 - c) \$4,573,000
 - d) \$5,447,450
 - e) \$5,000,000
- 2) Assume that at issuance, the market interest rate for similar bonds was 2% instead of the 6% given in the question above, Carey Ltd.'s bond issue price would be
 - a) An unknown amount given the speculative nature of bond values.
 - b) An amount greater than face value since bondholders would be willing to pay relatively more for a highly liquid investment.
 - c) An amount greater than face value since bondholders would be willing to pay a premium for an investment generating a return exceeding the market yield for comparable bonds.
 - d) An amount equal to par value since investors are rational and they never pay anything more (or less) than the amount they will receive on the maturity date.
 - e) An amount less than par value because investors would be attracted to similar bonds in the market paying an interest rate of 2%.
- 3) Total interest expense over the life of the bond would equal
 - a) \$1,000,000
 - b) \$1,500,000
 - c) \$1,422,700
 - d) \$1,843,800
 - e) \$1,427,000

For questions 4 to 7, assume that the present value of Carey's bonds was \$4,800,000 at the date of issuance and that the company uses a discount or premium account. The other information about Carey Ltd. are valid for questions 4-7.

4) Which journal entry should Carey Ltd. prepare to record the issuance of the bonds?

a)	Cash	5,000,000	
	Bonds payable		5,000,000
b)	Cash	4,800,000	
	Discount on bonds payable	200,000	
	Bonds payable		5,000,000
c)	Cash	5,000,000	
	Bonds payable		4,800,000
	Discount on bonds payable		200,000
d)	Cash	4,800,000	
	Bonds payable		4,800,000
e)	Cash	4,800,000	
	Loss on bonds payable	200,000	
	Bonds payable		5,000,000

5) Which journal entry should Carey Ltd. prepare on December 31, 2020?

a)	Interest expense	144,000	
	Cash		144,000
b)	Interest expense	100,000	
	Discount on bonds payable	44,000	
	Cash		144,000
c)	Interest expense	100,000	
	Cash		100,000
d)	Interest expense	144,000	
	Bonds payable		44,000
	Cash		100,000
e)	Interest expense	144,000	
	Cash		100,000
	Discount on bonds payable		44,000

- 6) What is the bonds' net book value (carrying amount) on December 31, 2020?
 - a) It would depend on the market interest rate on December 31, 2020. This rate is not provided in the problem, therefore, the bonds' net book value is unknown on December 31, 2020.
 - b) \$4,844,000.
 - c) \$5,000,000.
 - d) \$4,800,000.
 - e) \$4,756,000.

- 7) Assume that Carey decided to call (redeem) the bonds at 101 on the morning of January 1, 2021. Which one of the following statements would be correct?
 - a) A loss on bond redemption should be debited by \$206,000.
 - b) A gain on bond redemption should be credited by \$206,000.
 - c) No gain or loss should be recorded in relation to this transaction.
 - d) A loss on bond redemption should be debited by \$50,000.
 - e) A gain on bond redemption should be credited by \$50,000.

Use the following information to answer questions 8 to 14.

Musical Instruments Ltd. (MIL) sells different types of flutes and wind instruments to bands, orchestras and music stores. Selected information from MIL's comparative financial statements are provided below for the fiscal years ended December 31, 2020 and 2019.

Financial Statement Item	2020	2019
Accounts receivable, net	\$ 28,150	\$ 5,300
Inventories	5,000	15,000
Furniture and fixtures, at cost	29,500	13,000
Accumulated depreciation – Furniture and fixtures	12,000	6,000
Investments (long term)	1,000	1,500
Accounts payable	8,500	6,550
Dividends payable	-0-	300
Mortgage notes payable	14,000	-0-
Share capital	12,000	11,000
Retained earnings	9,650	12,650
Sales revenue	245,000	
Cost of sales	160,000	
Loss on sale of furniture	300	
Gain on sale of investments	200	
Net earnings	3,000	

Additional information:

- a. In 2020, MIL sold older obsolete furniture with an original cost of \$1,000 and \$600 of accumulated depreciation up to the date of sale.
- b. During 2020, MIL sold one of the non-current investments that had cost \$500.

For questions 8 to 12, assume that MIL uses the <u>indirect</u> method of reporting cash flows from operating activities for 2020.

- 8) The amount of depreciation expense that should be added to net earnings is:
 - a) \$6,000.
 - b) \$6,600.
 - c) \$12,000.
 - d) Not determinable without having a detailed statement of earnings.

- 9) The loss on sale of furniture is reported in which section of the statement of cash flows?
 - a) Operating activities as an addition to net earnings
 - b) Investing activities as a cash outflow
 - c) Operating activities as a deduction from net earnings
 - d) The loss would not be reported in the statement of cash flows because it does not affect cash.
- 10) The operating activities section of the statement of cash flows includes the following adjustments to net earnings:
 - a) An addition of \$22,850 for accounts receivable and an addition of \$1,950 for accounts payable
 - b) A deduction of \$10,000 for inventories and a deduction of \$300 for dividends payable
 - c) An addition of \$10,000 for inventories and an addition of \$1,950 for accounts payable
 - d) None of the above statements is correct.
- 1) The investing activities section of the statement of cash flows would report:
 - a) A cash inflow of \$16,500 for the purchase of new furniture and fixtures.
 - b) A cash inflow of \$500 for the sale of non-current investments.
 - c) A cash outflow of \$100 for the sale of furniture.
 - d) A net cash outflow of \$16,700 for all investing activities during the year.
- 2) The cash outflow for dividends during 2020 is:
 - a) \$3,000.
 - b) \$300.
 - c) \$6,300.
 - d) \$6,000.

For questions 6 and 7, assume that MIL uses the <u>direct</u> method of reporting cash flows from operating activities for 2020.

- 3) The amount reported for cash collections from customers is:
 - a) \$245,000.
 - b) \$222,150.
 - c) \$267,850.
 - d) Not determinable without an analysis of aged accounts receivable.
- 4) The amount reported for cash payments to suppliers is:
 - a) \$150,000.
 - b) \$158,050.
 - c) \$148,050.
 - d) \$151,950.

Use the following information to answer questions 15-17.
